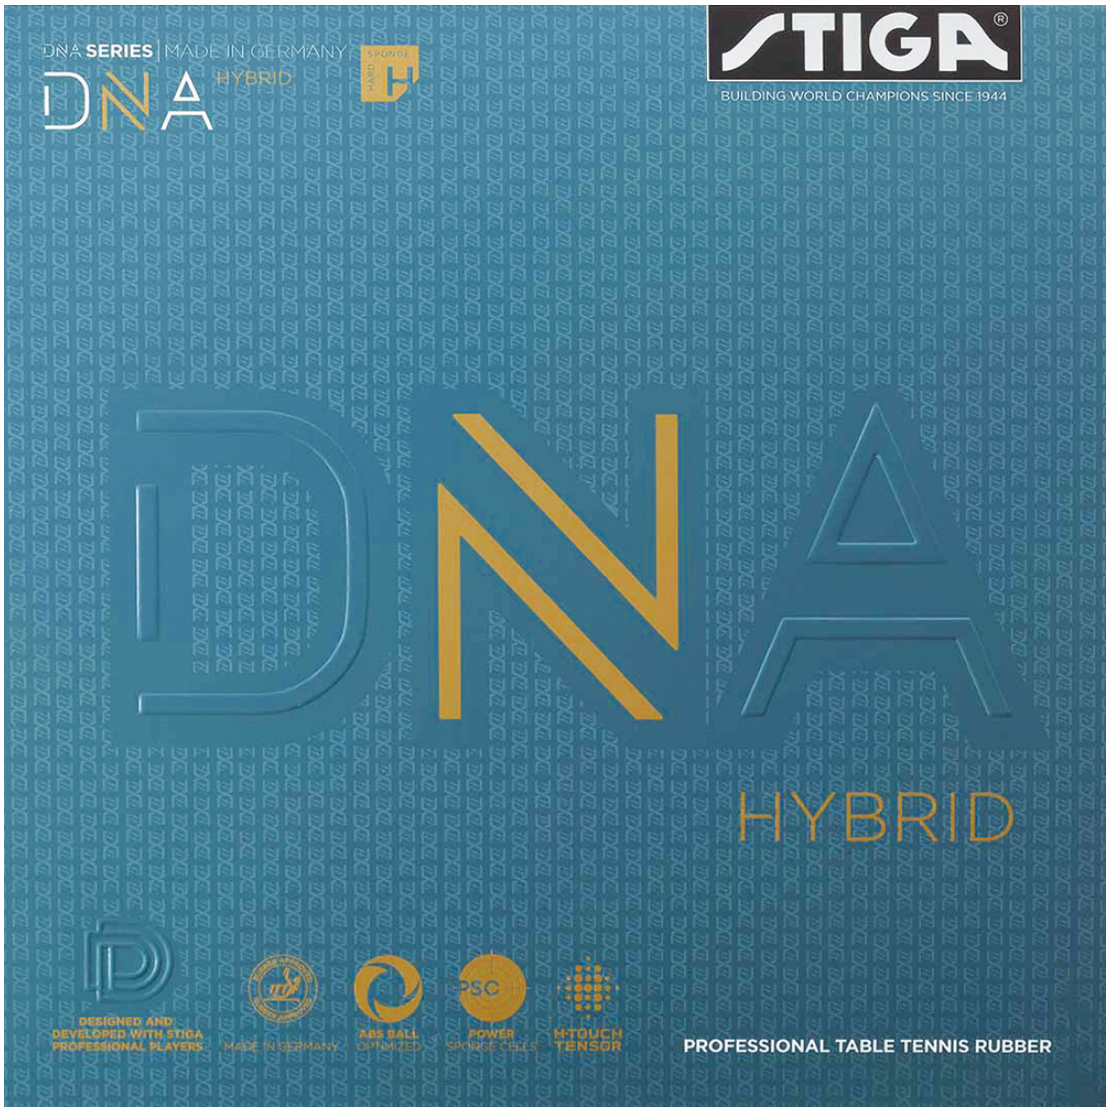
PRODUCT SPECIFICATIONS

DNA Hybrid H

Code: 32278

MRP : 8800.00

H-Touch Tensor technology provides a unique rubber with a sponge hardness of 50.0 degrees. The table tennis rubber has a semi-sticky surface for maximum rotation. Optimised surface grip for increased spin capacity and a longer ball trajectory. Power Sponge Cells deliver maximum catapult effect and optimal power Developed in collaboration with top Chinese, Japanese and Swedish players. Made in Germany, designed in Sweden.



Approved By：	ITTF Approved
Control：	76
Recommdended for：	Match
Speed：	160
Spin：	144
Sponge：	50°
Style ：	OFF
Technology：	H Touch Sensor, Polyball Optimized, Power Sponge Cell
Thickness (mm)：	2.1mm
