PRODUCT SPECIFICATIONS

DNA Hybrid M
Code: 32277

MRP : 8800.00

H-Touch Tensor technology provides a unique rubber with a sponge hardness of 47.5 degrees. DNA Hybrid M = Medium - A perfect balance between control and speed. The table tennis rubber has a semi-sticky surface for maximum rotation. Optimised surface grip for increased spin capacity and a longer ball trajectory. Power Sponge Cells deliver maximum catapult effect and optimal power Developed in collaboration with top Chinese, Japanese and Swedish players. Made in Germany, designed in Sweden.

Approved By :	ITTF Approved
Control :	74
Recommdended for :	Match
Speed :	164
Spin :	144
Sponge :	47.5°
