# PRODUCT SPECIFICATIONS

***DNA Hybrid XH***

**Code: 32279**

**MRP : 8800.00**

H-Touch Tensor technology provides a unique rubber with a sponge hardness of 52.5 degrees. The table tennis rubber has a semi-sticky surface for maximum rotation. Optimised surface grip for increased spin capacity and a longer ball trajectory. Power Sponge Cells deliver maximum catapult effect and optimal power Developed in collaboration with top Chinese, Japanese and Swedish players.  Made in Germany, designed in Sweden.
