PRODUCT SPECIFICATIONS

Cybershape Carbon

Code: 32195

MRP : 26000.00

Cybershape – a completely new type of blade with a unique shape and larger hitting area! One of the special features of Cybershape is that, during returns, the hitting area is as much as 6.5 cm closer to the table compared with 2.5 cm for a round blade. he larger hitting area provides an improved sweet spot, thus making it easier for the player to control their short serves and returns. As the hitting area on the top part has been expanded, the bottom part has been reduced by 2% in order to not make the blade too heavy and cause an imbalance. Cybershape is a 5+2-ply blade based on CCF (Close Core Fibre) technology, which means that the carbon layer sits directly on top of the wood core. The result is more control and speed in your game.

Approved By：	ITTF Approved
Control：	45
Material：	Wood + Carbon Fiber
Speed：	145
Style ：	OFF+
Technology：	CCF (Close Core Fibre) technology
Veneer：	5+2
Weight (gms)：	85±5 gms
