STIGA Perform Premium table tennis balls are the result of our passion and drive to shape the table tennis of the future. By combining automatic and manual sorting, we can inspect and ensure that each ball meets the highest standards for weight, roundness, and material quality – decisive characteristics for consistent, professional play. Each ball is made from durable ABS material, which prolongs ball life and offers more predictable bounce. It's ideal for both competition and ambitious practice sessions, and built for those who want to play with the very best.
