

# PRODUCT SPECIFICATIONS

DNA Hybrid XH

Code: 32279

MRP : 8800.00

H-Touch Tensor technology provides a unique rubber with a sponge hardness of 52.5 degrees. The table tennis rubber has a semi-sticky surface for maximum rotation. Optimised surface grip for increased spin capacity and a longer ball trajectory. Power Sponge Cells deliver maximum catapult effect and optimal power. Developed in collaboration with top Chinese, Japanese and Swedish players. Made in Germany, designed in Sweden.
