PRODUCT SPECIFICATIONS

ACT Black Olive Green

Code: 32314

MRP : 13000.00

ACT is the ultimate racket for you who are looking for an easy-to-play paddle racket without having to compromise when it comes to the feel and durability. A lighter padel racket that has a large sweet spot with a softer and lighter core, which provides good control and speed even during less intense play. The large sweet spot also gives a satisfying ball impact even when the ball is hit closer to the frame. ACT weighs only 355 g, which makes it easier to grasp the essence of the sport while reducing the strain on the wrist, elbow and shoulder. The low balance also makes ACT an easy-to-use padel racket that provides a good grip on the ball. The racket's extended grip makes it perfect for the two-handed backhand. The thin carbon fibre layer further out on the hitting area, combined with the soft core, creates a well-balanced padel racket that helps new players to develop their skills. Carbon One carbon fibre technology also contributes to a very durable racket that can handle intense play.
