PRODUCT SPECIFICATIONS

DNA Dragon Power-BLACK 52.5°

Code: 32327

MRP : 9200.00

Experience the next level of performance with Power Sponge Cell (PSC), engineered to unleash the ultimate catapult effect and deliver raw, unstoppable power with every stroke. Fine-tune your play with three distinct hardness options—choose between 52.5°, 55°, and 57.5° to perfectly match your playing style and strategy. Born from a collaboration with champions, this advanced rubber is crafted with insights from the Chinese national table tennis team, ensuring it meets the highest standards of elite competition. Made in Germany, it stands as a testament to impeccable quality, rigorously tested for durability and excellence that withstands even the most intense matches. Enjoy exceptional grip and spin properties that transform every hit into a powerful, high-arc shot. The cutting-edge C-Touch Surface Tensor Technology, infused advancements, refines your game to the next level, giving you the edge to outperform your competition. This unique combination of Power Sponge Cell (PSC) and C-Touch technology creates an unbeatable synergy, designed for players who demand nothing less than world-class performance.
