PRODUCT SPECIFICATIONS

Stiga DNA Platinum M

Code: 32185

MRP : 9000.00

Advanced table tennis rubber with superior grip and spin that allow for strikes from challenging angles. A thinner top sheet can accommodate a thicker sponge, thus offering more speed and power. It features shorter pimples for greater surface contact between sponge and blade. Power Sponge Cells for increased catapult effect and optimal power. A unique rubber compound with long durability and a clear, crisp sound. A sponge hardness of 47.5 degrees offers the perfect balance between control and speed.

Technology：	ESC
Control：	76
Speed：	160
Spin：	140
Sponge：	47.5 Degree (Medium)
